Landscape Design 101

The economy's bad, your yard looks worse, and it's just time for an update. Or maybe you built a new home but didn't leave much in the budget for the landscape. With so many homeowners looking to save some money on improvements, wouldn't it be nice to know how to create a landscape design yourself? Or at least have some professionals who can help you select plants and then you do the installation?

Johnson's Nursery has been a leader in quality plant material for 50 years and is here to offer our assistance. Get a head start on the spring rush and sign up for our free "Landscape Design 101" class. You will learn the basics of landscape design, how to take accurate measurements, and get plant ideas from a professional horticulturist and landscape designer. Intimidated? Don't be. Our "We Plan-You Plant" retail design program was created for you.

There will be two opportunities for attending the class:

Saturday, March 28th at 11:00am at the Butler Public Library
12808 Hampton Ave, Butler, WI 53007

Monday, April 6th at 6:00pm at the Johnson's Nursery
Menomonee Falls Location
W180 N6275 Marcy Road, Menomonee Falls, WI 53051

Please RSVP to register@johnsonsnursery.com or call us at (262) 252-4988.

Please specify the class and location you wish to attend.

Ask for Carrie Hennessy if you have any questions.

Landscape Design 101 is part of Johnson's Nursery

program.
